

## Ashley Oaks of St. Johns County Architectural Criteria

### 1.0 PURPOSE

The Architectural Criteria have been created and adopted by Ashley Oaks of St. Johns County to provide standards for improvements to Lots. These criteria are in addition to those outlined in the Declaration of Covenants and Restrictions for Ashley Oaks.

**Note:** *All approved ARB requests must be completed within 12 calendar months from the approval date. A request for reasonable delay in completion will be considered if a written request is submitted with rationale for delay.*

**The following require Architectural Review Board (ARB) approval:**

### 2.0 DETACHED BUILDINGS & STORAGE SHEDS

- A building and/or shed shall be defined as a structure with a roof and walls.
- Detached buildings/sheds shall be accessory in size to the home and shall not exceed the height of the roof line of the existing home.
- A detached building/shed shall be located (set back) at least five (5) feet from the side property line and ten (10) feet from the rear property line.
- The color of all detached buildings/sheds/covers (i.e. RV and Carport covers) shall match as closely as possible those of the existing home. No Metal RV and Carport covers shall be permissible.
- A detached building/shed shall be placed in the rear of the yard and a minimum of ten feet behind (toward the rear of the yard) the front façade of the dwelling to minimize street view where possible.
- Any detached building/shed greater than or equal to 300 square feet shall be finished on the outside with stucco, vinyl siding, brick or hardie board to align with the construction/materials of existing homes built in the neighborhood.
- For Lake Lots, consideration may be given to locate the detached building so as not to obstruct the view of the lake for immediate neighbors.

### 3.0 DOG HOUSES AND KENNELS

- Dog houses and kennels shall be located in the rear yard of the lot.
- Dog houses and kennels shall be screened from public and community view with landscaping or approved fencing.

### 4.0 FENCES

- Fences shall be constructed of wood or vinyl material in either vertical shadow box, vertical stockade or board on board design. Acceptable colors for wood fences are natural (wood) and wood stain. Wood fences shall not be painted. Acceptable color for vinyl fences shall be white, beige or tan.
- The height of the fence shall be no taller than six (6) feet.
- The bottom of fences shall be raised a minimum of six (6) inches above the ground over recorded drainage easements in order to not impede surface water flow.
- Fences shall be built behind (towards the rear of the lot) an imaginary line extending from ten (10) feet behind the front façade of the house towards the side lot lines.
- Fences shall not be permitted in front yards. Side and rear yard fences shall be permitted.
- Fences on lots which adjoin or include a portion of a lake (lake lots) shall not exceed forty-eight (48) inches in height and shall be constructed of black aluminum fencing.
- Any “fence-like” structure higher than twelve (12) inches above adjacent grade shall be considered a fence (i.e. miniature garden picket fences).
- Wood fences must be maintained as to prevent degradation, decay/rot, unsightly appearance and dilapidated fence structures
- Maintenance and preservation include regular power washing as needed, and weather/water sealant or staining in natural wood preservative.

Shown below are some examples of fences:
