The Association shall maintain those portions of the Common Area designated by applicable permit as conservation tracts, stormwater management tracts or similar designations, in accordance with all permit requirements, rules, and regulations promulgated by all local, state and federal authorities having jurisdiction. The Association shall be responsible for the maintenance, operation and repair of the Surface Water or Stormwater Management System. Maintenance of the Surface Water or Stormwater Management System shall mean the exercise of practices which allow the systems to provide drainage, water storage, conveyance of other surface water or stormwater management capabilities as permitted by the St. Johns River Water Management District. The Association shall be responsible for such maintenance and operation. Any repair or reconstruction of the Surface Water or Stormwater Management System shall be as permitted, or if modified, as approved by the St. Johns River Water Management District. All maintenance obligations of the Association shall be performed as ordered by the Board of Directors of the Association, and all or any portion of the cost of such maintenance incurred by the Association pursuant to this Section 5.4, shall be a common expense of the Association to be collected and paid in the manner prescribed by this Declaration.

### Section 5.5: Easement for Maintenance Purposes

The easement granted hereby shall not be exercised by any party in a manner which unreasonably interferes with the use, occupancy, or enjoyment of any improved portion of the Property. Further, in the event that any portion of the Property shall be damaged or altered in any way as the result of the exercise of the easement rights granted hereby, such portions of the Property shall be immediately restored to the condition that existed immediately prior to such damage or alteration.

### ARTICLE VI ARCHITECTURAL CONTROL

### Section 6.1: Architectural Review and Approval

All new construction, site improvements, landscaping and any modification of structures, landscaping and all other parts of the Lot visible from a street, Common Area or other public space must be approved in advance of performance of any work, Once construction begins, all construction must comply with the approved plans and specifications, and any changes to the plans must be reviewed and approved. Review is not required to repaint with originally approved paint and colors, or to replace the roof or other components with duplicates of those originally approved.

No structure of any kind, including, without limitation, any building, fence, wall, screen enclosure, yard drain, landscape device or driveway; landscaping improvement; or other improvement shall be commenced, erected, placed or maintained upon any Lot, nor shall any addition, change or alteration thereon or thereof be made, unless and until the plans, specifications and location of the same have been submitted to and approved in writing by the Association.

### Section 6.2: Standard for Review.

(a) Generally. Applications are approved based upon compliance with the Design Code in effect at the time of the submittal, compatibility with surrounding Lots and Common Areas and overall quality of design. The Architectural Review Committee ("ARC") may also consider other factors, including purely aesthetic considerations, so that it may require changes to a plan to improve its appearance even if the design meets the technical requirements of the Design Code. If the ARC rejects an application due to overall design quality, despite compliance with the Design Code, the ARC may make suggestions for improving the design.

It shall be the burden of each Owner to supply completed plans and specifications to the ARC and no plan or specification shall be deemed approved unless a written approval is granted by the ARC to the Owner submitting same. The ARC shall approve or disapprove plans and specifications properly submitted within thirty (30) days of each submission. Any change or modification to an approved plan shall not be deemed approved unless a written approval is granted by the ARC to the Owner submitting same.

- (b) <u>Variances</u>. The ARC may occasionally grant a variance from the Design Code based on existing topographical or landscape conditions, accessibility needs, architectural merit, or other conditions deemed reasonable by the ARC, but the granting of such a variance shall not be deemed a precedent for other variances. If such a variance is granted, no violation of the covenants, conditions and restrictions contained in this Declaration shall be deemed to have occurred with respect to the matters for which the variance was granted. The granting of such a variance shall not, however, operate to waive any of the terms and provisions of this Declaration for any purpose except as to the particular Lot and particular provisions of this Declaration or applicable Design Code covered by the variance, nor shall it effect in any way an Owner's obligation to comply with all governmental laws and regulations, including, but not limited to, zoning ordinances and setback lines or requirements imposed by any governmental or municipal authority.
- (c) <u>Tree Protection</u>. The cutting, removal or intentional damage of existing trees (including excessive pruning or failure to use due care with equipment or when removing other trees permitted to be removed) is strictly regulated under the Design Code.
- (d) <u>Governmental Compliance</u>. Owners are responsible for making sure that construction conforms to governmental regulations and all local building codes. All plans must comply with applicable drainage, water conservation, erosion control and stormwater detention requirements. If the ARC notes noncompliance, the Owner will be required to make the necessary changes. However, the ARC is not responsible for compliance with governmental requirements.

### Section 6.3: Architectural Review Committee

- (a) <u>Establishment</u>. The architectural review and control functions of the Association shall be administered and performed by the ARC, which shall consist of three (3) or five (5) members who need not be members of the Association. The Board of Directors of the Association shall have the right to appoint all of the members of the ARC. A majority of the ARC shall constitute a quorum to transact business at any meeting of the ARC and the action of a majority present at a meeting at which a quorum is present shall constitute the action of the ARC. Any vacancy occurring on the ARC because of death, resignation or other termination of service of any member thereof shall be filled by the Board of Directors. Members of the Board may sit on the ARC. To the extent reasonably possible, the Architectural Review Committee shall include one or more architects, designers, builders or other professionals with an interest in home design. The ARC may employ personnel or contract with individuals or companies as necessary to assist in the review process.
- (b) <u>Procedures</u>. Plans and specifications for review shall be submitted in the form and number required by the ARC. The ARC may provide Design Guidelines, Lists of approved Building and Landscape materials, and Colors and may allow for staff review and approval of routine or minor matters. The ARC may also require submission of samples of building materials and colors proposed for use on any Lot, and may require tree and vegetation surveys to show the effect of the proposed improvements on existing trees and preservation areas, and such additional information as reasonably may be necessary for the ARC to completely evaluate the proposed structure or improvement in accordance with the Design Code.
- (c) <u>Fees</u>. The Board shall set the ARC review and inspection fees to cover all or part of the expected cost of its operation and shall fund any deficit. Fees shall not be intended to create a surplus, other than an ordinary operating capital fund for the ARC to which any excess fees shall be contributed.
- (d) <u>Inspection</u>. The ARC or its agent may inspect the property during construction but has no obligation to make any such inspection.

### Section 6.4 Powers and Duties of the ARC

The ARC shall have the following powers and duties:

(a) To recommend amendments to the Design Code to the Board at such time as the Board shall have the right to adopt or amend a Design Code for the Property. For so long as the Developer shall be entitled to elect or appoint a majority of the members of the Board, only the Developer shall have the right to promulgate, amend, or replace the Design Code applicable to architectural review to be conducted by the Association. At such time as members of the Association shall elect a majority of the members of the Board, the Design Code shall be promulgated, amended, or replaced by the Board. Any amendment of the Design Code shall be consistent with the provisions of this Declaration. Notice of any amendment to the Design Code shall be delivered to each member of the Association. The delivery to each member of the Association of such notice of amendment to the Design Code shall not, however, constitute a condition precedent to the effectiveness or validity of such amendment. The Design Code, or any amendment thereto, shall not be recorded.

- (b) To require submission to the ARC of complete sets of all plans and specifications for any improvement or structure of any kind requiring review and approval of the ARC pursuant to this Article.
- (c) To approve, including the granting of variances, or disapprove in accordance with the provisions of this Article, any improvements or structures of any kind or any change or modification thereto, the construction, erection, performance or placement of which is proposed upon any Lot and to approve or disapprove any exterior additions, changes, modifications or alterations therein or thereon. All decisions of the ARC may, but need not be evidenced by a certificate in recordable form executed under seal by the President or any Vice President of the Association. Any party aggrieved by a decision of the ARC shall have the right to make a written request to the Board within thirty (30) days of such decision, for a review thereof. The determination of the Board upon review of any such decision shall be dispositive.
- (d) To collect review fees as set by the Board. Such fees, if any, shall be payable to the Association at the time that plans and specifications are submitted to the ARC.

### Section 6.5: Compensation of ARC

The Board may, at its option, pay reasonable compensation to any or all members of the ARC.

### Section 6.6: Enforcement

- (a) <u>Generally</u>. If any construction or installation is begun which has not been approved or which deviates from approved plans and specifications, the Board may by majority vote approve any of the following actions on behalf of the Association:
  - (i) Require the Owner to resolve the dispute through binding arbitration,
  - (ii) Seek an injunction requiring the Owner to immediately stop construction and remove or correct any improvements that are not in compliance with approved plans.
  - (iii) Bring suit seeking other remedies, including any combination of damages, specific performance, declaratory decree and/or permanent injunction or other remedy at law or in equity.

If the Association brings suit and the court finds that the construction was not approved or that the construction deviated from the approved plans or specifications, then the Association shall also be awarded reasonable attorney's fees and costs, even if the relief requested is not granted.

(b) <u>Compliance Deposit, Fines</u>. The ARC may require the builder or Owner to post a Compliance Deposit from which the ARC may deduct published fines and costs of rectifying the deviation for failure to comply with the approved plans and specifications and rules for builder conduct. The collection of a fine shall not in any way diminish the available remedies at law or equity.

- (c) <u>Tree Protection</u>. Improper cutting, removal or intentional damage to existing trees is subject to fines as set by the ARC, plus a requirement that the tree be replaced with an approved species of comparable caliper, or, if approved by the ARC, a combination of trees totaling the caliper of the removed tree.
- (d) <u>No Waiver</u>. Failure to enforce any provision of this Article shall not be deemed a waiver of the right to do so at any time thereafter.

### Section 6.7: Limited Liability

In connection with all reviews, acceptances, inspections, permissions, consents or required approvals by or from the Developer, the ARC or the Association as contemplated by this Article, neither the Developer, the ARC nor the Association shall be liable to an Owner or to any other person on account of any claim, liability, damage or expense suffered or incurred by or threatened against an Owner or such other person and arising out of or in any way related to the subject matter of any such reviews, acceptances, inspections, permissions, consents or required approvals whether given, granted or withheld by the Developer, the ARC or the Association.

## ARTICLE VII COVENANTS FOR MAINTENANCE ASSESSMENTS

### Section 7.1: Creation of the Lien and Personal Obligation of Assessments

Each Owner of a Lot within the Property hereby covenants, and by acceptance of a deed therefore, whether or not it shall be so expressed in any such deed or other conveyance, including any purchaser at a judicial sale, shall hereafter be deemed to covenant and agree to pay to the Association any annual assessments, and any special assessments established and collected as hereinafter provided. All such assessments, together with interest thereon from the due date at the highest lawful rate and costs of collection thereof (including reasonable attorneys' fees), shall be a charge and continuing lien upon each Lot against which each such assessment is made and shall also be the personal obligation of each Owner. No Owner may avoid liability for the assessments by waiver of rights to use or by nonuse of the Common Areas or by abandonment.

### Section 7.2: Purpose of Assessments

- **7.2.1.** The annual assessments levied by the Association shall be used for the purposes of management of and accounting fees, taxes, insurance and utility charges relating to the Common Area, to fund the obligations of the Association set forth in Section 5.4 hereof and for all other purposes reasonably contemplated by this Declaration, the Articles or the Bylaws. Further, such annual assessments may be levied to fund reasonable reserves for deferred maintenance of, or non-recurring expenses related to the Common Area.
- 7.2.2. The Board of Directors may levy special assessments for any purpose relating to permissible or required activities of the Association pursuant to this Declaration, the Articles or the Bylaws. Any funds collected pursuant to such a special assessment shall be used solely for the purpose or purposes identified by the Board of Directors at the time such special assessment is levied.

### Section 7.3: Calculation and Collection of Assessments

Annual assessments shall be established by the Board of Directors based upon an annual budget. Each Owner's prorata share of the total annual assessment or any special assessment shall be based upon the following:

- (a) All annual and special assessments shall be established at a uniform rate per Lot by dividing the total annual or special assessment amount by the total number of Lots within the Property.
- (b) The assessment obligations of each Owner other than the Developer shall commence upon the recordation of this Declaration in the public records of St. Johns County, Florida. Annual assessments shall be collectable in advance installments on a periodic basis established by the Board of Directors from time to time, which periodic basis shall not be less frequent than quarterly. Special assessments shall be collectable in advance in the manner established by the Board of Directors at the time such special assessments are authorized.
- (c) The annual assessment cannot be increased by the Board of Directors in excess of 5% of the prior year's assessment without approval of a majority of the membership.

## Section 7.4: Effect of Non-Payment of Assessment: Lien, Personal Obligation, and Remedies of Developer

The lien of the Association shall be effective from and after recording in the public records of St. Johns County, Florida, a claim of lien stating the description of the Lot encumbered thereby, the name of the Owner, the amount and the due date. Such claim of lien shall include assessments which are due and payable when the claim of lien is recorded as well as assessments which may accrue thereafter, plus interest, costs, attorneys' fees, advances to pay taxes and prior encumbrances and interest thereon, all as herein provided. Upon full payment of all sums secured by such claim of lien, the same shall be satisfied of record, and the affected Owner shall pay the cost of such satisfaction. If the assessment is not paid within fifteen (15) days after the due date, the Association may charge a reasonable late fee and at the Association's option, the assessment shall also bear interest from the due date at the highest lawful rate, and the Association may at any time thereafter bring an action to enforce the lien authorized hereby by appropriate foreclosure proceedings and/or a suit on the personal obligation against the Owner. In the event the Association shall fail to bring such an action for collection of a delinquent assessment within thirty (30) days following receipt of written notice from any Owner demanding that such proceedings be commenced, such Owner shall be authorized to institute such proceedings. There shall be added to the amount of such delinquent assessment the costs of collection incurred by the Association, or such Owner, which shall specifically include, without limitation, reasonable attorneys' fees for trial and appeal.

### Section 7.5: Subordination of Lien to Mortgages

The lien of the assessments provided for by this Declaration shall be subordinate to the

lien of any bona fide mortgage which is perfected by recording prior to the recording of the claim of lien for any such unpaid assessments. Such subordination shall apply only to the assessments which have become due and payable prior to a sale or transfer of the affected Lot by deed in lieu of foreclosure, pursuant to a decree of foreclosure or pursuant to any other proceeding in lieu of foreclosure of such mortgage. No sale or other transfer shall release any Lot from liability for any assessments thereafter becoming due, nor from the lien of any such subsequent assessments. A written statement of the Association that the lien is subordinate to a mortgage shall be dispositive of any question of subordination.

### Section 7.6: Developer's Assessments

Notwithstanding any provision of this Declaration to the contrary, during the Development Period (as defined below) the Lots and other portions of the Property owned by the Developer shall not be subject to any annual or special assessments levied by the Association or to any lien for such assessments. During the Development Period, the Developer shall pay the balance of the actual operating expenses of the Association (excluding costs of major repairs, deferred maintenance, replacements and reserves) remaining after the levying of and payment of assessments due from Owners other than the Developer pursuant to assessments levied by the Board of Directors pursuant to this Declaration. The Developer shall be obligated to fund such balance only as the expenses are actually incurred by the Association during the Development Period. In the event the Developer shall fund deficits resulting from the failure of one or more Owners to timely pay assessments, the Developer shall be entitled to reimbursement for such funding out of proceeds recovered by the Association from such Owners. Further, should the Association collect surplus funds for any annual period, such surplus funds may be used during subsequent annual periods to reduce the Developer's deficit funding obligation. The Development Period shall begin upon the conveyance of the first Lot in the Property to an Owner other than the Developer and shall continue until the Developer shall notify the Association that it will no longer pay for operating deficits of the Association. Upon termination of the Developer's agreement to pay operating deficits, the Developer shall become obligated to pay assessments on Lots owned by it within the Property on the same basis as other Owners. In no event shall the Developer be obligated to pay for operating deficits of the Association after the Developer no longer owns any Lots within the Property.

## ARTICLE VIII EXTERIOR MAINTENANCE ASSESSMENT

### **Section 8.1: Exterior Maintenance**

The Association may provide maintenance upon any Lot or Limited Common Area requiring same, when necessary in the opinion of the Association's Board of Directors to preserve the beauty, quality, or value of any or all portions of the Property. Such maintenance shall include but not be limited to painting, roof repair and replacement, repair of gutters, downspouts and exterior building surfaces and yard clean up and yard maintenance. Each affected Owner shall have fifteen (15) days within which to perform the required maintenance after being notified in writing by the Association that such maintenance is necessary before the Association undertakes the maintenance.

### **Section 8.2: Assessments of Costs**

The cost of any maintenance undertaken by the Association under the provisions of Section 8.1 shall be assessed against each Lot upon which such maintenance is performed or, in opinion of the Board, benefiting from same. Exterior maintenance assessments shall not be considered a part of the annual or special assessments imposed upon the Property pursuant to Article VII of this Declaration. Any exterior maintenance assessment shall be a lien upon each Lot assessed and the personal obligation of the Owner of each such Lot and shall become due and payable in all respects, together with interest, attorneys fees, and costs of collection, as provided for in Section 7.4, and shall be subordinate to mortgage liens to the extent provided by Section 7.5.

### Section 8.3: Access

For the purpose of performing the maintenance authorized by this Article, the Association, through its duly authorized agents or employees, shall have the right, after the notice to the Owner provided under Section 8.1, to enter upon any Lot at reasonable hours on any day except Sunday. In the case of emergency repairs, access will be permitted at any time with only such notice as under the circumstances is practically affordable.

### ARTICLE IX UTILITY PROVISIONS

### Section 9.1: Water System

The central water supply system provided for the service of the Property shall be used as sole source of potable water for all water spigots and outlets located within or on all buildings and improvements located on each Lot.
